- Inform site manager and operations on material site availability

- Make inventory evaluation on the stock items for future use

CIVIL HEARTH AND CONCRETE WORKS

- Monitore and update schedule progress for Prefab and installation of concrete
- Monitore and update schedule progress for Well pads construction
- Monitore and update schedule for Road access construction

MECHANICAL AND ELECTRICAL - FACILITIES INSTALLATION

- Monitore and update schedule progress for the installation of facilities (pumps, compressors, transformers, E-House, pipes and supports, boilers, heaters, flare, tanks, heat treaters....)
- Monitore and update schedule progress for the Installation of all cables and connections
- Monitore and update schedule progress for flowlines and productiob piping installation at well pads
- Monitore and update schedules progress for the installation of VSD, Substation and panels at well pads

RIG OPERATIONS AT GWDC RIG 450HP - CHAD - (3 Years)

WELL TEST / 2011 - 2014 / 2023 for 4 months

- Mob and install site accommodation
- Mob and install BOP house, water and swabbing tanks
- Mob and install mud pump and pressure lines
- Pressure test and Remove wellhead
- Remove tubing hanger and install piping spool
- Mob and Install BOP and rigfloor
- Assist mechanic during rigup
- Install all necessaries rig utilities
- Assist HSE and rig manager for rig inspection
- BOP test and mud pump pressure lines test
- Introduce piping scrapper and begin running hole
- Well clean and pullout stand
- Running hole welltest tools after SBL (sound bound logging) by wireline crew
- Pressure test and and assisting welltest team on perforation
- Test well, pullout and bridge plug by wireline team
- Rig demob

WELL COMPLETION / 2011 - 2014

- Rig mob to new location
- Rig up and inspection
- Well circulate and pull out pipe stands
- Run in hole pipe stands with tools
- Drill bridge plug and well circulate
- Pull out pipe stand, assist in operation of wireline
- Run in hole ESP or PCP together with pipe stands
- Rigdown and christmas tree installation
- Rig demob and well handover to operations department

WELL MAINTENANCE / 2011 - 2014

- Rig mob to new location and rig up
- Well circulate, pressure test and pull out
- Replace damaged pumps or sucker rod
- Replace damaged ESP cable
- Replace damaged production tubing
- Run in hole and well back to production
- Rig demob

MAINTENANCE AT SACVIN NIGERIA Plc/ltd (2 years)

SAFETY MAIN DUTIES / 2005 - 2007

- Work plan and instructions
- Hold toolbox meeting, discuss on hazard prevention during operations: heat, slippery, high lifting area, confine space, appropriate tools...
- Report weather conditions inside factory for health protection

MAINTENANCE MAIN DUTIES / 2005 - 2007

- Daily check oil temperature during machine operations
- Daily check injection barrel and nozzle temperature for overheating
- Daily check water cooling system
- Set machine on automatic operation if necessary
- Check out air system on machine for material release
- Carryout weekly and monthly maintenance

MECHANICAL MAIN DUTIES / 2005 - 2007

- Intall new ordered material
- Carryout repair and replacement of failure equipment parts
- Intall moulds on injection machines

ELECTRICAL MAIN DUTIES / 2005 - 2007

- Construct capacitor banks for high frequencies power generators
- Power switchover and generators weekly maintenance
- Assisting electrician on maintenance of 5 tons mob crane (test wires resistance, output power, greasing rotation parts, replace shear parts)

PLANNING AND PROCUREMENT MAIN DUTIES / 2005 - 2007

- Seat down with supervisor and head of operation for share parts purchase
- Track delivery date of ordered share parts material with customers
- Report material delivery date tracking to hierarchy.
- Participate in weekly and monthly maintenance meeting
- Write daily report and send out to head of operations and maintenance department

COMPETENCES

- Excel, Ms word, Ms project, P6 Primavera, Outlook, Power point, CMMS
- Familliar to P&ID, Pipe ISO, layouts reading
- welltest operations and HSE, Confine space operations
- Team work and self motivation, Problem solver

SELF MOTIVATION ACHIEVEMENT

- Welding, basic electrical knowledges
- Diesel generator "Jiangdong" repair

- Solar pannel installation
- Familiar to P&ID reading and bridge rectifier connections for small generators

PROFESSIONAL TRAININGS

- 2022: Monitoring and evaluation, Project management, Ms project
- 2023: HSE, Well control, Technical drilling, Assistant Crane and lifting,
- 2015: Introduction to Oil and Gas
- 2013: Driving license

EDUCATION

- 2004-2005: Senior secondary school certificate High level (Major science) at Lycee Felix Eboue Ndjamena/Chad
- 2007-2009: Diploma in mechanical engineering at Unitech school of science and technology (Jos/Nigeria)
- 2009: Certificate of apprenticeship, automobile maintenance/repair at workshop Jos/Nigeria
